Insert values into the RESERVE3 by clicking Populate Table on the Main UI:

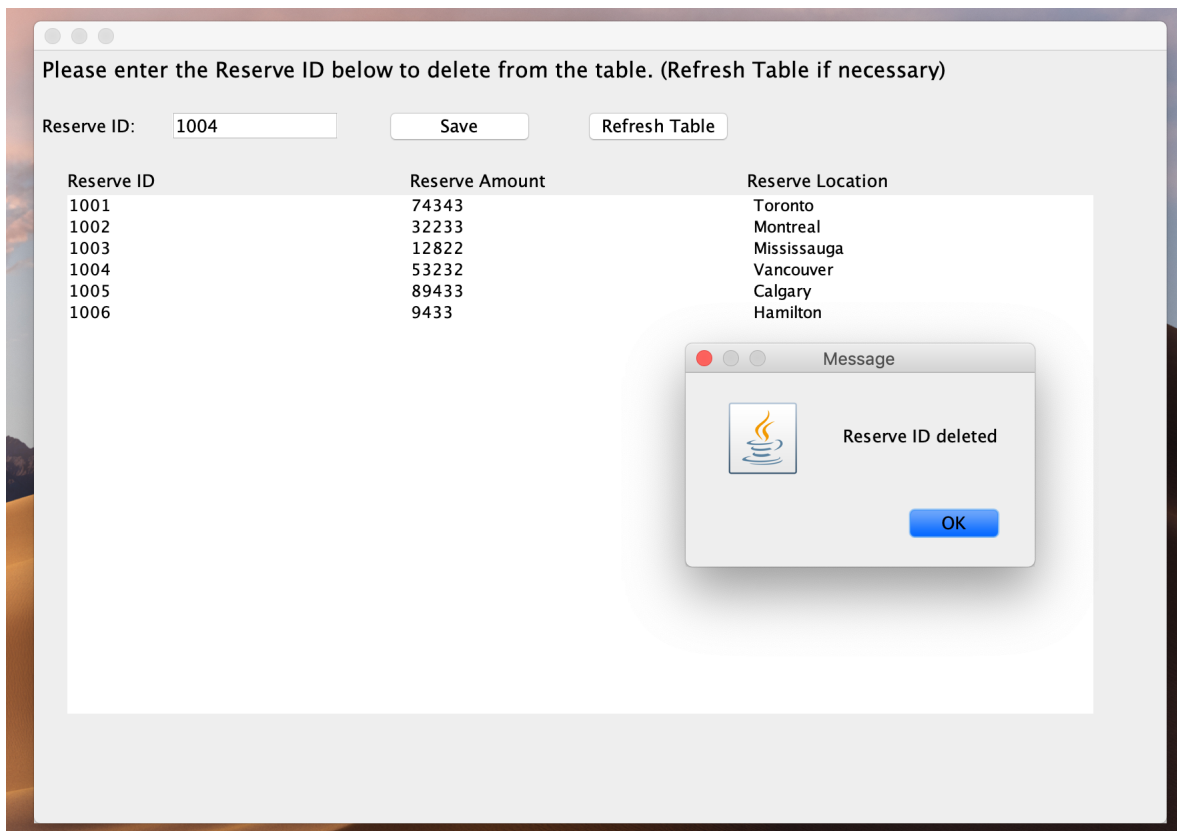

Checking SQL Developer to see that the table (RESERVE3) was created:

The screenshot shows the SQL Developer interface with the 'RESERVE3' table selected. The 'Data' tab is active, displaying a table with three columns: RESERVE_ID, RESERVE_AMOUNT, and RESERVE_LOCATION. The table contains six rows of data. The interface includes a top menu bar with options like Columns, Data, Model, Constraints, Grants, Statistics, Triggers, Flashback, Dependencies, Details, Partitions, Indexes, and SQL. Below the menu bar are icons for various database operations and a 'Sort..' button.

	RESERVE_ID	RESERVE_AMOUNT	RESERVE_LOCATION
1	1001	74343	Toronto
2	1002	32233	Montreal
3	1003	12822	Mississauga
4	1004	53232	Vancouver
5	1005	89433	Calgary
6	1006	9433	Hamilton

Altering the table (RESERVE3) by using Reserve ID as the input argument:

The screenshot shows a web application interface for deleting a record from the 'RESERVE3' table. The main window has a title bar with three dots. The content area contains the text 'Please enter the Reserve ID below to delete from the table. (Refresh Table if necessary)'. Below this text is a form with a 'Reserve ID:' label, a text input field containing '1004', a 'Save' button, and a 'Refresh Table' button. To the right of the form is a table with three columns: 'Reserve ID', 'Reserve Amount', and 'Reserve Location'. The table lists six records. A 'Message' dialog box is open in the foreground, displaying a SQL Developer logo and the text 'Reserve ID deleted' with an 'OK' button.

Please enter the Reserve ID below to delete from the table. (Refresh Table if necessary)
